1. Introduction

Purpose of the Manual

The purpose of this instructional manual is to present a thorough discussion of how the website, HogCare, works. Whether you are a new user or someone seeking a refresher, this manual is intended to help you navigate through the pages of the website, may it be to navigate or to utilize a feature in a website, manage your account, and more.

Overview of the Website

HogCare, is a website created specifically for people who are in the pig industry. It aims to help those new and people with experience in their business in hog farming.

2. Getting Started

Accessing the Website

To access HogCare, open your web browser and navigate to <https://hoggrowingmanagement.infinityfreeapp.com/>

Creating an Account

To create an account:

1. Go to <https://hoggrowingmanagement.infinityfreeapp.com/login.php>
2. Click on [Sign Up].
3. Fill out the required information (Username, First name, Last Name, Password, etc.).
4. Click [Submit].

Logging In

To log into your account:

1. Go to <https://hoggrowingmanagement.infinityfreeapp.com/login.php>

2. Enter your username and password.
3. Click [Log In].

3. Navigating the Website

Main Menu

In the website, the main menu is located at the top of the page and includes links to Home, Guides, About, Contacts, Login.

Home

The Homepage contains the description of the web application.

Guides

The Guides section contains a swine raising guide and other relevant information.

About

The About section states why the web application should be used by individuals in the pig raising industry.

Contacts

The Contacts section has the information for contacting the developer of the website.

Login

The Login section is where the user may access the website's functionality further by logging in.

4. Account Types

Worker

In this account type, it allows the user to access the website's features and use in creating and modifying data of pigs stored in the website's database.

Manager

In this account type, it provides the user elevated privileges compared to those with worker type accounts such as retrieving multiple pig data from different workers, managing different users classified as Worker, etc.

Administrator

In this account type, the user has complete control of the system. The administrator has the controls similar to those with manager type accounts and also has control on all of the accounts, being able to modify the user account, enable or disable specific accounts, change specific user's passwords, etc.

5. Features

The features of the web application are listed below. The feature is only accessible to the account types indicated next to it.

Dashboard (Worker, Manager, Admin)

The dashboard has a summarized data from the various components of the web application such as the pig quantity, feed quantity, income, expenses and pig information.

Update Pig Profile (Worker, Manager, Admin)

The user can select a pig to change its information in the database. To access this page, the user must click [Go to Update Pig Profile]. The following details can be changed: Pig ID, Gender, Breed, Date of Birth, Weight (in kg), Length (in mm), Width (in mm), Height (in mm), Notable Physical Features, Feed, Vaccination Report, Disease History, Legality, Farrowing, Farrowing Starting Date, Grade, and Pig Status.

The screenshot shows the HogCare application interface. On the left is a sidebar with navigation links: Dashboard, Pig Profile (highlighted), Inventory, Cash Flow, Farrowing, Guide, Backup, Settings, and Logout. The main content area is titled 'Update Pig Information' and contains a form with the following fields: 'Select Name of Pig:' (a dropdown menu with 'Select a Pig' as the placeholder), 'Name of Pig:' (a text input field), 'Gender:' (a dropdown menu), 'Breed:' (a dropdown menu), 'Date of Birth:' (a date picker showing 'mm/dd/yyyy'), 'Weight: (in kg)' (a text input field), 'Length: (in mm)' (a text input field), and 'Width: (in mm)' (a text input field). A green '+ Update' button is located in the top right corner of the form.

Inventory (Worker & Admin)

The Inventory states how many kilograms or pounds of feed are available for consumption. The values can also be updated by the user. The user can also update the inventory by clicking [Update Inventory]

Swine Raising Guide

Breed of Swine					
Breed	Color	Ears	Type	Origin	Observations
Landrace	White	Hanging	Meat	Denmark	Long face, good mothers, weak legs and prolific
Large White	White	Standing	Meat	England	Fertile, high quality meat, fast grower
Berkshire	Black with 6 white points	Standing	Meat	USA	Short, black skin, more resistant to diseases compared to white breeds
Hampshire	Black with white bands	Standing	Meat	USA	Short, good quality meat, strong legs
Duroc Jersey	Golden Red	2/3 Erect 1/3 hanging	Meat	USA	Good constitution, strong legs, fast grower, resistant to stress
Pietrain	Black and White	Standing	Very Meaty	Belgium	Very meaty, ham and loin, very susceptible to stress

THE SELECTION OF PIG BREEDS

The proper selection of breeding stock is important for the success of the pig farm. In order to have healthy piglets, it is important to use high-quality sows and boars in the pig farming process right from the beginning. This will help your livelihood to prosper. You will also save on production expenses. The important thing to remember here is this: The good quality piglets you will produce will fetch a good price in the market.

PHYSICAL BASIS FOR SELECTION

Backup (Worker, Manager, Admin)

The Backup page enables the user to generate a report which includes the summarized information of a specific pig. Managers and Admins can generate a report for all pigs.
